Odd Fellows to Hold Open Session.

Bourbon Lodge No. 23, I. O. O. F., which is now in its sixty-eighth year, will commemorate the ninety-fourth anniversary of the founding of the order in America with a banquet and open session. Every Odd Fellow and his wife or some adult member of the family are invited to be present.

Twenty-eight widows of deceased members of Bourbon Lodge will be present on this occasion.

The program of exercises, including brief addresses, will begin in the lodge room promptly at 7:30 o'clock, and at the conclusion the banquet will be served in Croisdale's Cafe, on the second floor of Bourbon Lodge building.

The committee requests that all members who expect to be present to please give notice in person or by telephone to Committeeman E. B. January, so that proper preparation may be made for their entertainment.

Oil Ordered for Paris Streets.

Sixty thousand gallons of oil will be used on the streets of Paris during the season, or at least that is the amount that has been ordered by the city for that purpose. The oil should have been here some weeks ago, but the delay was occasioned through the inability of either the Standard Oil Co. or the Indian Refining Co. to supply the order.

It is said the above amount of oil will be sufficient to lay the dust for the entire summer, and will only be received in installments necessary for use. It is stated by Mayor Hinton that the first installment of about 10,000 gallons will arrive in Paris next Thursday, when workmen will begin spreading it upon the streets.

There have been a large number of complaints heard regarding the dusty condition of the streets, but owing to the existing conditions there was no remedy visible, until those with whom the city contracted to furnish the oil could make the first shipment. At any rate it is possible we may not have to endure the dust but a few days longer.

Local Commandery to Meet.

Couer de Lion Commandery No. 26, Knights Templar, will meet this evening. The committee on arrangements is ready to make its final report regarding the proposed trip to Owensboro to attend the annual conclave. It is necessary to have an expression from each member of the Commandery. A full attendance is requested.

City Council Fixes Licenses.

Licenses for the ensuing year for the conduct of business within the city of Paris were fixed at the regular meeting of the City Council last night, and with the exception of a few slight changes they remain the same as those of last year.

A license of \$100, tending to limit rate loan offices and pawn shops, was fixed, and the license of \$1,000 which has been in force for the past three years, was by a unanimous vote, placed upon seventeen saloons applying.

A petition from the residents of the Eastern section of the city was presented to the board asking that a sewer be constructed to drain that neighborhood, and the matter was referred to the Sanitary Committee to employ a competent engineer to go over the ground, make an estimate, and file a report with the Council at its next meeting.

Building permits were granted as follows: Dr. D. S. Henry, one story brick garage, High street; Bourbon Tobacco Warehouse Company, two story brick building in Barrs Addition, to cost \$10,000; Woodford Spears, one story brick garage on Third street, \$300; French Thompson, five one-story frame dwellings on Thomas avenue to cost \$500 each.

The question of the laws of the city compiled was discussed by the council resulting in the City Attorney being ordered to compile and present to the council, the laws of the city now in force.

Before the conclusion of the meeting Mr. Charles Barnett who has been temporarily acting as chief of fire department, was elected as a member by the unanimous vote of the board, and by the same vote was chosen as chief of the department and invested with the power of his office. Thomas Bratton was placed in nomination for the place but a second was lacking.

Violinist at High School Tonight

Roy Young, the sensational American violinist, will give a recital at the High School auditorium tonight. Mr. Young comes to the city with the highest recommendations as a violinist of unsurpassed talents. Of him the Milwaukee Free Press says: "Mr. Young is decidedly original. He surpasses in daring everything heretofore attempted, and reaches far beyond the feeble attempts of a Hyden in 'The Creation,' or Wagoner in 'Seigfried.' It is freely admitted that, especially in his Morceau Characteristic, 'The Old Pump,' Mr. Young not only eclipses the two great masters mentioned, but even steals a march on his forerunner in musical realism. Mr. Sebocek whose 'Frog Pond' until now enjoyed the distinction of the boldest attempt of a translation of natural philosophy into music."

Mayor Hinton Issues Formal Announcement.

Elsewhere in this issue will be found the formal announcement of Mayor J. T. Hinton as a candidate for the Democratic nomination for Mayor of the city of Paris, subject to the action of the Democratic primary August 2. The announcement which was made several days ago, came as no surprise, as it was generally known by those conversant with the situation that the announcement would be forthcoming at the first sign of opposition, and it was felt that an endorsement could be asked by the present incumbent, who for the past three years has been at the head of the city's affairs.

During his present term of office the affairs of the city have been conducted on a business basis, and a consistent devotion of time to the duties of his office has been rewarded with perhaps the most successful term of office ever held by a local official.

During the past three years there has been a steady decrease in the tax rate of the city until at the present time it is lower than at any time in a decade. There has been a steady improvement in the streets and thoroughfares of the city, and one of the most notable improvements is the miles of excellent sidewalks throughout the city, a result of the labors of the present administration.

During Mayor Hinton's term of office and in the face of a decrease in the tax rate, there has been accumulated in the city treasury a neat sum after canceling bonds, paying interest and meeting the general expenses of the city.

Due to Mayor Hinton's efforts Eastern capitalists were interested in a proposition to extend natural gas to this city, and it is probable before next fall citizens of Paris will be provided with this convenience, which will result in great saving.

The assurance of a hearty support from those who opposed him in his former race is highly encouraging to Mayor Hinton, who enters the contest with bright prospects for one of the largest majorities ever accorded a city official in a Democratic primary.

Paris, Ky., April 22, 1913.
TO THE DEMOCRATIC VOTERS OF THE CITY OF PARIS:

Believing that the present administration of the affairs of the city has been such as to merit the approval of every citizen, I announce myself as a candidate for the nomination for the office of Mayor of the city of Paris, subject to the action of the Democratic primary of Aug. 2, 1913.

I pledge myself, if elected, to use the same conscientious care and personal oversight that I have endeavored to use during this term of office to obtain the best results possible in every department.

As an endorsement the support and vote of every Democrat is respectfully solicited.

Yours,
J. T. HINTON.

"WE KNOW HOW"

Even WE Admit

that there are more important things in the world than having the right clothes. We realize that, as the poet says, "A man's a man for a' that."

But, unfortunately, people WILL judge a fellow by the way he looks, and even more unfortunately, lots of fellows don't look as well-dressed as they might. It isn't because they don't want to, or because they don't try, it's because they don't know how or where to get garments that will bring out the best of them and hide the worst of them.

We don't say that we CAN, because it wouldn't be modest, but we're morally sure that we MIGHT show you a suit that would cause the first friend you met to congratulate you on your improved appearance. COME and SEE.

CURE FOR BROODINESS

Two Methods Given for Breaking
Up Setting Hens.

Strenuous Measures Must Be Adopted
to Dissuade Fowl From Her Purpose—Leghorns Are Most
Popular for Eggs.

(By PROF. JOHN WILLARD BOLTE.)
Contrary to general impression, broodiness in hens is not a fever and we have no evidence to show that it is contagious. The ailment, if we may term it thus, appears without warning. The fowl may have been laying steadily and acting in a perfectly normal fashion, when suddenly she becomes imbued with a great distaste for active pursuits. She betrays a very crabbed disposition, rushing at her erstwhile friends and pecking them viciously whenever they approach her. Her plumage sticks out at right angles, making her appear about twice as large as usual. With head drawn deep into her hackle feathers, and wings and body taking up as much space as possible, she mounts guard over her chosen nest and defies all comers.

The hen becomes broody because nature prompts her with a sudden desire for a brood of chicks. She probably does not know why she does it, as she will take to potatoes or door knobs as kindly as to eggs, but she

Excellent Egg Type.

sets when the time comes just the same, and she will keep on setting until you break her up or let her hatch out a brood of chicks.

This pertinacity would not be so important if it were not for the fact that she quits laying and stays quit. She has decided upon a vacation and she refuses to work during this period. The loss of a couple of months of a hen's time is not to be thought of at any period, and especially during the spring, which is the natural time for setting and heaviest egg production as well.

If we do not wish to set the hen on eggs we will have to adopt strenuous means to dissuade her from her purpose and start her to laying again. There are a number of successful ways of doing this, and conditions will indicate the most favorable. The main thing is to act promptly and be thorough.

Remove the broody hens from the nests each night, as they are most easily detected then. They stick to the nest instead of going to roost. Dust them thoroughly with insect powder and confine them in an open slat crate or cage in a cool, light location. Keep water before them and give nothing to eat except a little whole wheat and green stuff once a day. This will not hurt the hen and about three days of this "water cure" will convince her of the error of her ways.

Another good way is to have a separate pen with absolutely bare floor and walls, and no possible place to nest, and place all of the broody hens in it, in the company of two or three vigorous male birds. This scheme is frequently used on large poultry farms.

The heavier breeds are especially addicted to broodiness, the Asiatics being the worst offenders and the Plymouth Rocks and R. I. Reds leading in the American class. Leghorns and Minorcas and Hamburgs set so rarely that they cannot be depended on to raise their young. For this reason the Leghorns are the most popular breed for large egg farms, as they waste no time setting and the young are easily raised artificially.

Most Fertile Eggs.
The eggs from mature hens will hatch better and produce stronger chicks than the eggs of pullets. They are usually larger, too.

Discarding Setting Hen.
The old setting hen is gradually going out of business, with several hundred manufacturers of incubators and brooders as competitors.

Don't Change Its Mind.
When once set, the incubator does not have the privilege of changing its mind as does old Biddy.

First American Flag.
The first American flag of the present stars and stripes pattern was hoisted over Ft. Schuyler, then a military post on the site of the present village of Rome, Oneida county, New York. At that time the flag had only thirteen stars, but the stripes were the same in number as now, thirteen.

Pains in the Stomach.

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. C., who suffered with pain in the stomach and back writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters were recommended and I improved from the first dose. I now feel like a new man." It will improve you too. Only 50c and \$1. Recommended by Oberdorfer.

Main Idea.

"I suppose there are many problems which the poor explorers seek to solve?" said the unscientific man. "Yes," replied the intrepid traveler; "a great many." "What is the most important one?" "Getting back."

Coughs and Consumption.

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1. Recommended by Oberdorfer's.

EVERY INCH A CAR

What Are the Factors of Car Satisfaction?

Comfort, Roadability, Stand-Up Quality, Ease of Control
Silence, and the Service behind the Car—these are the
Big Factors of Satisfaction.

In all these the KisselKar is unsurpassed—in most of them unequalled. Your motoring pleasure is strictly bounded by the comfort of the car—and no matter how pleased you may be in other respects, you will seriously miss in full satisfaction if the car lacks in comfort.

On the KisselKar's claim as the easiest riding car ever built, if for nothing else, you should ride in a KisselKar before you make a choice. The sense of light, silent motion you experience in the KisselKar belongs to the KisselKar exclusively—it is due to the extra liberal wheel base—big wheels—big tires—springs especially constructed according to the weight of each body—unusually commodious tonneau—extra deep, low seats, eleven inches of seat upholstery—also to the "balance" of the car which modifies side-sway, and to the lack of engine vibration.

Wide range or throttle control practically eliminates gear-changing. All ordinary driving is by throttle or accelerator control. You can drive on "high" (fourth geared up speed) as fast or as slow as you want to go

—climb any hill on "high" that any car built will climb.

Electric self-starter. Puts no strain on the engine—a touch of the foot lever is a start every time, in all weathers. Electric lights give twice the light of ordinary lamps.

BAD U. S. NAVAL MEN

Men of War Who Violate Laws
Divided Into Two Classes.

Offenders Promising Reform Are Sent as "Detentioners" to Disciplinary Barracks, Others Receive Hard Work.

Washington.—Naval prisoners are divided into two broad classes; first, those convicted of offenses involving moral turpitude or violation of general laws of the country, and, second, those convicted of purely military offenses. In order that young naval prisoners who have been guilty only of military offenses may not be compelled to associate with criminals, offenders of the first class are sent to state prisons. There they are subjected to the rules and discipline of the institution in which they are confined in the same manner as persons convicted by civil courts, except that as to reduction of sentence for good conduct they receive the same benefit as men confined in naval prisons. The state prisons in which such naval prisoners are confined are the Connecticut state prison, Wethersfield, Conn.; the New Hampshire state prison, Concord, N. H., and the California state prison, San Quentin, Cal.

Certain offenders of the second class, whose previous records have been bad or afford little foundation on which to base hopes of reform, or whose retention in the service is for other reasons regarded not desirable, are sent to naval prisons or prison ships, where they perform hard labor, but are saved from association with criminals. These naval prisons and prison ships are in a satisfactory shape as to discipline and sanitary conditions. All prisoners are required to do outdoor work, thus removing the depressing effect of constant indoor confinement. They are generally in better physical condition when discharged from prison than when they are received. The food is ample in quantity, of good quality and is well cooked.

Offenders of the second class, whose previous records give hope of reform, are sent to what are known as "naval disciplinary barracks." These offenders are called "detentioners" instead of "prisoners," they continue to wear their naval uniform instead of the prison garb, and instead of performing "hard labor" they are put through a carefully selected course in service drills and instructions, with a view to increased efficiency when restored to duty. These detentioners, although deprived of liberty and pay during detention, escaped the ignominy which attaches to persons who have served a term in prison. After a detentioner has satisfactorily served two-thirds of the period to which he is sentenced, he is placed on probation at the disciplinary barracks, and, as far as possible, with duties similar to those performed by other enlisted men in the navy. During the probationary period the detentioner is carefully observed by the officers in charge, and if his conduct warrants such action he is unconditionally returned to general duty. This last provision makes it possible for any detentioner at the disciplinary barracks whose sentence includes dishonorable discharge to save himself from such a discharge.

By the establishment of the detention system and the consequent ability to segregate offenders of the different classes the whole subject of prisoners in the navy has, in general, been developed along modern ideas of prison reform.

The disciplinary barracks now in use by the government are at Port Royal, S. C., and Puget sound, Bremerton, Wash.

PUT BAN ON "HOW DO YOU DO?"

French Society Regards the Salutation as Meaningless and Lame—New One to Be Used.

Paris.—A movement is on in society to banish from conversation and ban the generally meaningless phrase, "How do you do?" and put in its place some less insipid formula.

People are pointing out that of one hundred persons inquiring thus after one's health no three are really interested in the subject, and no answer is either given or expected on either side.

If one be well the inquiry is an idle one, while if one be ill it leads to an interminable discussion of symptoms, remedies, doctors, etc., which should find no place in ordinary small talk.

The general opinion is that the offending phrase must be relegated to those who have not enough intelligence to begin talk in any other way, and a search is being made for some other set of words with which to open a dialogue. It is probable that the laconic Roman "Salve" will be adopted in the French form, Je vous (te) salue.

Drop Ancient Berlin Custom.

Berlin.—No more will the lord mayor of Berlin stand at the great Branden gate on Unter den Linden for weary hours awaiting the coming of royal and other prominent personages to welcome them to the capital city. The custom, which had prevailed for a century or more, was departed from for the first time upon the recent visit of the King and Queen of Denmark. Lord Mayor Adolf Wermuth went to the railroad station, met the royal guests as they left their train and delivered his address of welcome there.

The ideal carriage horse is the American trotting bred horse, with size, speed, courage, and the true trotting gait, with plenty of knee and hock action. In addition he must have a clean cut head and neck, style and finish, plenty of substance without coarseness.

Recognizing the demand for this class of horses, I selected Taylor Simmons 23489, a young horse which fills all the requirements of the typical carriage horse. If the theory that "like begets like" be true, he will produce horses of this type when mated with good mares. Through his veins flow the blood of the greatest trotting families. He traces twice to George Wilkes and five times to Mambrino Chief II. This is backed by the stout thoroughbred blood of Boston.

A few of the fancy priced ones sired by Taylor Simmons: Thendara, winner in the walk-trot class at the Blue Grass Fair in 1907, Louisville Horse Show and in the East, sold by Col. C. L. Bailey for \$2,500; Alleen Powers, sold to Godfrey Priest, of New York, for \$1,000; Little Nath, sold for \$500 to Eastern parties. His get are always commanding the price that pay a man to raise good stock. Lien retained on colts until season money is paid.

Certain Cure For Nervous Debility.

Tona Vita Overcomes Trouble In
Few Weeks' Time.

There is a remedy that is absolutely certain to build up those suffering from a run down condition. This remedy is considered the most successful medicine ever sold to the public in this country. It is called Tona Vita, and it is fast becoming a national tonic, endorsed by physicians everywhere.

If you are debilitated, tire easily, have little strength or ambition and are nervous and depressed, get a bottle of Tona Vita at once. You will be delighted to feel your old health and strength returning in a few days' time. If you have lost flesh, note your weight before taking it and then get on the scales a week later. You will be astonished.

Tona Vita is sold by Chas. E. Butler & Co.

Pour Beer Into Sewer.

Four hundred bottles of beer were broken and the liquor poured into a sewer at Carlisle by Police Judge James E. Plummer, Tuesday. Ernest Thompson, of Henryville, Nicholas county, was arrested at midnight bringing the liquor from Paris in a spring wagon, and the liquor was seized by the officers. When he was tried Thompson agreed that the officers might confiscate the liquor, which was done.

J. Will Clay Replies to Hadden.

Mt. Sterling, Ky., April 23, 1913
Hon. Rufus Hadden,
City.

Dear Sir: Actuated only by a desire to promote party harmony, yet signifying my absolute willingness to submit my claims to the Democracy of the entire Senatorial district, I addressed you a courteous letter suggesting that our candidacy be left to a fair primary in our home county, and where we are both best known, and was somewhat surprised to receive your declination wherein you permit certain disappointed office seekers and enemies of mine to give vent, through you, to a personal attack upon me, in the hope that by so doing my chances for election this fall will be endangered.

I opposed the gentlemen named by you for nomination only and after they were selected as the nominees of the party they received my unqualified support. The fact that I am willing to submit our claims to our home county Democrats, who know the personal, political and public record of both of us is sufficient denial of all our charges, which are groundless throughout and so known to be by those who are really making them, through you.

I stand on my own merits and refuse to engage in a controversy calculated only to injure the party and its nominees this fall.

Respectfully,
J. WILL CLAY.

MATRIMONIAL.

FOSTER—LINVILLE

—Mr. William Linville, of this city, and Miss Nellie Foster, of Millersburg, were quietly united in marriage Wednesday afternoon at the home of Dr. B. M. Shive, on Duncan Avenue. Mr. Linville is in the employ of the L. & N. railroad with headquarters in Paris. He is a promising young man, son of Mr. William Linville, who for many years resided near Millersburg. Miss Foster is a charming young lady, a sister of Mrs. Margaret Mitchell, Mrs. William Parker and Mr. John Mahar, of this city, and Mr. Philip Mahar, of this city. The young couple went to housekeeping immediately after their marriage. They were the recipients of many nice and useful presents.

—Mr. Grover Butler and Miss Anna Belle Clifford obtained a marriage license Wednesday from County Clerk Pearce Paton. Both reside in this county. Mr. Butler being a son of Mr. W. C. Butler.

DEATHS.

LYTLE.

—Mr. John V. Lytle died Tuesday night at 8:45 o'clock at his home in Maysville after a long and painful illness of over six months' duration. He was born in Bracken county, October 21, 1846, and was consequently in his sixty-sixth year. In the Civil War he served in the Fifty-fourth Mounted Infantry of Company K. He belonged to Joseph Heiser Post, G. A. R., and was a member of DeKalb Lodge No. 12, I. O. O. F. About ten years ago he was superintendent of the Paris Gas Co., a position he had held for several years, and when he resigned he moved to Maysville to reside.

Besides his wife he is survived by one daughter, Mrs. M. E. Dodson, of Maysville, and two sons, Omar, of this city, and Foster, of Maysville. Also four sisters, Mrs. James Stairs and Mrs. Wesley Fagin, of Sterling, Kans., Mrs. Nannie Cline, of Bradford, Ky., and Miss Lydia Lytle, of Johnsville, Bracken county; three brothers, Scott and Chris Lytle, of Johnsville, and L. F. Lytle, of Covington.

The funeral was held from the residence, under the auspices of the Odd Fellows, Thursday morning, at 10:30, services being conducted by Rev. W. W. Hall pastor of the M. E. church, South. Interment in the Maysville cemetery.

RION.

—Mrs. C. L. Rion, wife of Dr. Croxton L. Rion, died Tuesday night at their home in Seattle, Washington.

The message containing the sad intelligence was received Wednesday by Mr. and Mrs. Joseph M. Rion, of this city. Mrs. Rion before her marriage was Miss Elizabeth Langley, of Louisville, and was well known here, where she had visited with her husband at the home of his parents, on Second street. Dr. and Mrs. Rion had been married nine years. Death was caused by a nervous break down.

LAWTER.

—George Lawter, the fourteen months old son of Mr. and Mrs. Robert Lawter, died at the home of his parents, Mr. and Mrs. Robert Lawter, residing on the John Marston place, on the Redmon pike, a few miles from this city, yesterday morning.

HANLY.

—Mrs. Joe Hanly, wife of Joe L. Hanly formerly of Paris, died in Kansas City, Mo., Sunday, April 13. Mrs. Hanly is well remembered here, where she has a host of friends who will learn of her death with genuine regret. Before her marriage she was Miss Rena Piper, of this city. Mr. Hanly is a brother of Mr. John A. Hanly, of Kansas City, formerly of Paris.

Jury In Brent Case Divided.

The jury in the case of Gay, of Clark county, Spears and Wilson, of Paris, versus Brent, of this city, on trial at Winchester, reported to Circuit Clerk Clay Aldridge, Judge Benton being out of town on account of the illness of his mother, shortly before noon Monday that they were unable to reach a verdict, and were excused until Wednesday morning at 9 o'clock. The jury stood seven for the defendant and five for the plaintiff.

The jury had deliberated on the case an hour Saturday and since 9 o'clock Tuesday morning. The plaintiffs claim that in July, 1906, they bought a carload of grass seed from the defendant, Brent, for future delivery, but at that time the price had advanced and Brent declined to deliver, justifying his actions on the grounds that the plaintiffs compose a trust and that a contract with such is not enforceable. Judge Benton's instructions stated that if the jury believed that Gay and his associates had entered into a combination to control the price of the seed they should find for the defendant.

FOR HOW LONG?

Paris Raises Pertinent Question.

When a neighbor tells us that he has recovered from a serious illness, the first question that naturally arises is, "How long will he keep well?" Temporary relief is one thing, but a lasting cure is altogether different. There is nothing temporary about the work of Doan's Kidney Pills as the following Paris evidence proves beyond a doubt:

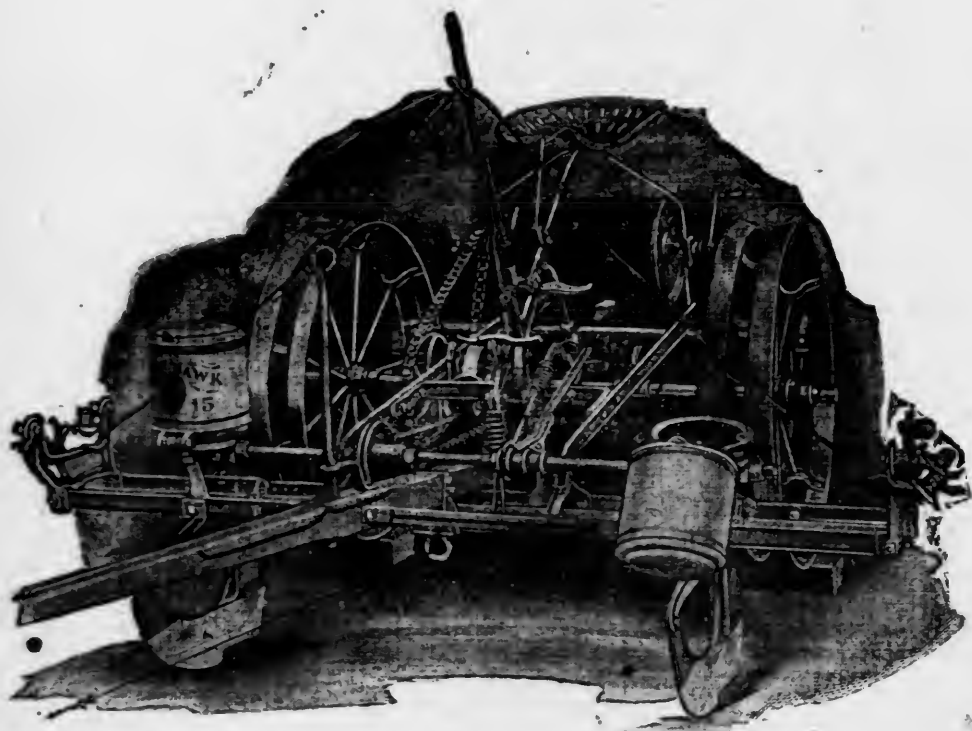

Mrs. J. T. Martin, Pleasant and Eleventh streets, Paris, Ky., says: "I suffered quite severely from pains across the small of my back and in my kidneys. The trouble alarmed me and I tried many medicines. I did not get relief, however, until I procured Doan's Kidney Pills at Wilson's, now Chas. E. Butler & Co's, drug store. They improved my condition in every way. All I have ever said praising Doan's Kidney Pills was entirely correct and I confirm my former public endorsement. They permanently cured me of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Can You Bake a Good Cake?

WE KNOW YOU CAN, if you will use CALUMET BAKING POWDER.

ANNOUNCEMENT EXTRAORDINARY!
BIG PUBLIC DEMONSTRATIONS!

Next Saturday, April 26th, at all the leading grocery stores there will be a young lady showing the "Government Test" of all Baking Powders, and will show to the good housewife of Paris why she should use "CALUMET." It costs less than the TRUST-MADE KIND, YET IT IS VERY MUCH BETTER, costs a little more than the big CHEAP CAN brands, but it is WELL WORTH the difference. Every spoonful does its work perfectly: NO WASTE, NO FAILURES. Buy a can from your grocer. IF YOU DON'T LIKE IT BETTER THAN ANY OTHER YOU HAVE EVER USED, YOU GET YOUR MONEY BACK. Remember this, IF YOU DON'T GET "CALUMET" YOU WON'T HAVE THE BEST.

Received Highest Award, World's Pure Food Exposition, Chicago, 1907. Also at Paris, France, 1912. For sale at all the Leading Grocers.

MONEY IS DESPISED TRASH

Love, Kindness, Baseball and "Money" Make Isle of Guam a Paradise, Says Captain Brackett.

Chicago.—There is a tiny speck on the map of the South Seas. It is found by drawing a line due east 1,600 miles from Manila. At the end of the line is the world's only Utopia, 320 square miles in extent, where money is not needed, used or desired. It is the island of Guam.

Capt. W. Brackett, United States marine corps, vice-governor and chief justice of the little island, visited the marine headquarters of Chicago and smiled a bored smile at the mention of money.

"Money is just so much metal or paper," he said, and waved his hand in repudiation of everything that can be purchased. "Over in Guam everybody is happy and no one wishes for money. Guam is the one spot of complete content in all the world because it has no money system."

Not even a system of exchange or barter obtains among the 13,000 brown-skinned men who make up the island's population.

"Nature has given the inhabitants everything they can wish," the captain explained. "Their good food grows on trees before their doors. They build their own huts and occasionally weave garments for themselves. That ends their work. They are not lazy, but they do not work. Every one is happy there. Kindness and love and baseball and moving pictures are all there is to life. And what more could be wished?"

"We established a moving picture show," Captain Brackett said, "and the natives are wild over it. It gives them the only motive they have for doing work, and now every woman on the island has taken to raising chickens, as ten hen's eggs will secure admission to the show. The baseball games are free."

Captain Brackett obtained leave of absence to go to his home in Peoria, Ill.

EARL AN ARDENT SUFFRAGIST

London's Political Clubs Certain That Beauchamp Will Be Canada's Next Governor-General.

London.—It is now definitely stated in political clubs that Earl Beauchamp, pronounced Beecham, will succeed the Duke of Connaught as governor general of Canada.

Lord Beauchamp married Lady Lettice Grosvenor, a sister of the Duke of Westminster, in 1902. They have two sons and four daughters. Beauchamp commenced his public career at the age of twenty-three by becoming

Lady Beauchamp.

ing mayor of the City of Worcester; at twenty-five he was made a member of the old London school board and surprised England by receiving the governorship of New South Wales when he was just over twenty-seven. He was extremely popular in New South Wales.

Beauchamp is an ardent suffragist and once received a deputation from the suffragettes. Lady Beauchamp is musical as well as sporting and is a first rate organist, a good whip and a very keen gardener. She defies superstition by wearing a magnificent set of opals at every function.

LAZY FISH SAVE MANY LIVES

Campers in Washington State, Who Couldn't Get a Bite, Move Just Before Landslide.

La Conner, Wash.—Lazy fish in the Skagit river saved the lives of two men and several women and children recently.

As the fishing was poor the party of campers, including the families of Henry G. Fleming and Alvin Klesling, picked up their things and moved several rods upstream.

The men on returning to the old camp for some stools found that an immense earthslide had covered their camping spot of an hour before to a depth of 200 feet. The sudden migration of the party had saved their lives.

Cancer and Cockroaches.

Two medical investigators, one in England and the other in Copenhagen, have come to the conclusion that cancer is due to cockroaches, possibly through some alliterative process of reasoning. Hence—swat that cockroach. We are not without hope that if we but kill a sufficiency of animals, we may yet prolong our lives.

"Yes, our new wagon's a Studebaker—the only kind we KNOW"

"The Studebaker idea has been in our family for sixty years. We have never thought of buying any other kind of a wagon."

"It's true, we're continually being offered other wagons costing a little less, with lots of promises as to what they will do. But we know in our family what a Studebaker will do. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most."

"Long service for a fair price means more every time than short service for a few dollars less."

"That's why we stick to Studebaker—and 'Stick to Studebaker' is a pretty good motto for a man who uses wagons."

"Studebaker wagons are built of good stuff. They're made right by people who've had years and years of experience in making them right—people who are trusted the world over."

"Studebaker wagons last, because they're made to last."

"Look out for the dealer who tells you his wagon is just as good as a Studebaker. That's my advice after a good deal of experience—and the experience of all my people. You get a Studebaker and you've got a safe investment."

GOOD BARN FOR SMALL FARM

Building Shown Has Accommodation for Four Horses and Five Cows—Ample Grain Room.

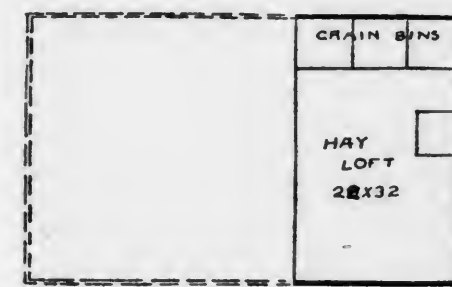

The dimensions of barn well adapted to a small farm are 32 by 52 feet. It contains stalls for four horses and five cows, and has a driveway 12 feet wide. It has two hay-lofts, one 18 by 32 feet, and another 22 by 32 feet. Ample provision is made for the grain-bins, the size of which may be regulated to meet the requirements of any farm by reducing or enlarging the hay-loft. This barn will take care of the stock, hay and grain, of a 100-acre farm very

nically, and costs only about \$1,600, the price varying according to the cost of material in different sections. The barn is floored throughout with a good quality of pine, and the roof is of galvanized iron. The entire barn is painted with two coats of paint. If home help is employed in the heavy work and only a single carpenter employed, the cost of the barn may be materially reduced. The estimate of \$1,600 is given to include the services of a carpenter and all other necessary help at day wages.

Amount of Silage for Horse.

Horses are very fond of silage, but according to Kansas Farmer there is considerable danger to their getting too much of it. Forty pounds a day is supposed to be about the maximum amount that can be fed to cattle, but here are very few cattle that will average this much, and it should be remembered that the horse has a very much smaller stomach than the cow.

A little silage given as a horse ration will be thoroughly relished, and the animal will show its appreciation of it by his improved condition and glossy coat, but be careful not to give him too much.

LIVE STOCK NOTES

A fattening ration will ruin a sow for a breeder.

Separate the young breeding sows from the fattening stock.

Oats and peas sown together make a great forage crop for sheep.

Over-feeding and under-exercising will ruin the best of brood sows.

Flockmasters should never sell a cull sheep, excepting to the butcher.

Better have the love and the friendship of a good horse than that of many bad men.

The fewer sows we keep the better are the chances of saving a large number of pigs per sow.

The winter feed of the ewe should contain the essential food nutrients in their proper proportion.

If hogs are crowded in cold weather in a cold pen they will pile up and smother the weaker ones.

Give the shoats plenty of feed with roots each day. They will then make a steady growth and return a profit. It is a mistake to confine the breeding stock too closely. They should have exercise in order to develop right.

The hog that is uneasy, nervous and is constantly fighting with the others is usually an unprofitable feeder.

Never feed pigs more than they will clean up. When the feed is left in the trough or on the floor it soon becomes a loss.

Avoid crowding the lambs in the winter feeding quarters. They need a lot of room on account of their natural habit of crowding.

Second—The undivided one-seventh interest of the late E. F. Rash in a certain lot of ground, with the improvements thereon, situated in North Middletown, Bourbon county, Kentucky, on Main street, running 36 feet east and west on said Main street, and 266 feet, more or less, back north and south; being the lot or parcel of land bounded as follows: viz: on the north by the property of Mrs. Skillman, on the east by the brick storehouse and lot of the Bean heirs, on the south by the aforementioned Main street, and on the west by the storehouse, etc., of B. E. Bean and the Masonic lodge; and also all the rights and privileges as to the alley entrance heretofore reserved in deed to Mrs. W. G. Skillman; the privilege being reserved to the Bean heirs to use said alley in passing to and from their storehouse lot, as set out in deed from the Bean heirs to Reuben See, and being the same property conveyed to G. W. Rash by Reuben See by deed recorded in Deed Book 71, page 425, Bourbon County Clerk's office.

Said sale will be made upon the credits of six and twelve months for equal parts of the purchase money, purchase being required to execute bond for equal installments of the purchase price, with good surety thereon, to be approved by the Master, and payable to said Master, and bearing interest at the rate of 6 per cent. per annum from date of sale until paid, and to remain a lien upon the property sold until paid, and to have the force and effect of a judgment.

The Master will first sell the undivided one-seventh interest in the tract of 165 acres of land, and he will then sell the undivided one-seventh interest in the brick store building in North Middletown, offering the interests of said E. F. Rash and the said brick store building separately.

MILLERSBURG COAL & LUMBER CO. 25 2c

Invitations are out to the old cadets announcing the M. M. I. Home Coming, which will take place June 2 and 3. All the old catalogues of the school from 1893, including 1913, are being carefully gone over and every ex-cadet whose address can be ascertained is being sent one of these invitations, with an earnest request to be present. However, there are a number of old cadets whose addresses are not known, and any information in regard to such will be thankfully received by Col. and Mrs. Best. Let everyone who is interested in the homecoming that have the addresses of the old cadets communicate with Col. and Mrs. Best so as to learn whether they have their present address.

Mrs. Wm. Ritchie, aged about thirty-five, died at her home Tuesday morning after a short illness. She was formerly Miss Green, of Bartonsville. She with her husband and one daughter, resided on the farm of Mr. J. T. Purdy. The funeral took place Thursday at ten a. m., at Rose Hill Methodist church, Rev. J. D. Redd officiating. Interment in Rose Hill cemetery.

Mrs. E. R. Huston and family have moved from rooms in the Miller flat to the property of the Misses Griffith, on Vimont street, recently vacated by Mr. Claude Case and family.

Mrs. Turner Paton and children and Mrs. Roy Lowe, a neighbor, while returning to their home from Millersburg, Tuesday afternoon, came near meeting with a serious accident. They were driving an old family horse that has always been considered safe. About the time they passed the old brick house on the farm of Col. W. M. Layson, on the Cynthia pike, the horse began trotting rapidly, the speed increased, and a few moments later it was in a dead run. Both ladies made a strenuous effort to stop the animal, and as they approached the home of Mr. John Knox, they met Mr. James Howard, who seeing their condition, jumped from his buggy and seized the horse. The animal was going so fast that it pulled him down and as it turned the corner the buggy struck the stone wall, throwing the occupants to the ground. Mr. Howard succeeded in stopping the horse about the same time. Mrs. Paton was the only occupant sustaining any injuries. A few slight bruises. Mrs. Lowe and the children were uninjured. The buggy was demolished.

Military Equipment Sold.

Major Victor E. Dodge, of Lexington, Monday bought at public auction the military equipment, comprising 800 rifles and 18,000 cartridges, sold by the State. The price paid was \$3,500 and the value placed on the property by the State was \$8,000. This equipment was displaced by the rifles and ammunition furnished by the Federal Government. It was bought by the State during the troublesome period that followed the assassination of Governor William Goebel, and was intended as arms for the mountain army that came to Frankfort to keep former Governor William Taylor in office if ousted by the Legislature.

Arnold Trial is Set for June.

Judge Fryer in the Pendleton Circuit Court heard the motion of the plaintiff for a continuance of the Newt. Arnold case at Falmouth, Monday. E. P. Morrow, attorney for the defense, set forth that he could not be present Wednesday, the day set for the trial, and if the Court should insist upon proceeding he would be obliged to withdraw from the case.

The question of hearing the case on May 19th was canvassed, and Col. Robt. Franklin, who has been added to the number of counsel for the Commonwealth, stated that it would be impossible for him to be present on that date.

By consent of all parties, the Court then designated Monday, June 10th, as the date when the trial should begin. That will be the week following the regular May term of the Harrison Circuit Court, which convenes on the fourth Monday in May and continues for three weeks.

The counsel in the case now are: for Arnold, E. P. Morrow, of Covington, and Judge Barton, of Falmouth; for the Commonwealth, J. C. Dedman, M. C. Swinford and R. R. Fanklin.

Health Official Busy.

More than seven hundred persons residing in this city, in compliance with the order of the Board of Health, have been vaccinated, and more are yet to come. Health Officer A. H. Keller has been exceedingly active during the past several days with the work with the above result. A large percentage of those submitting to vaccination were school children. The appearance of small pox in this city a few weeks ago prompted the action of the Health Board, and the effect is far reaching.

Luke McLuke Says

You will never know the real value of a diamond until you take it to a hockshop and try to soak it.

Talking about well filled articles, the egg and the sausage haven't anything on a hobble worn by a corn-fed chicken. A single man imagines a woman goes around the house all day wearing dainty muslin lingerie strung with baby ribbon, but a married man knows better.

Maybe Father wouldn't be so much of a heathen if Mother would keep buttons on his clothes instead of knitting wrist warmers for the benighted cannibals in the Solomon Islands.

When I get so old and all-in that curves look like hooks to me I am going to turn reformer and spend all my time bewailing the error made by Nature when she put red blood into our veins instead of ice water.

Before marriage he could hold her on his lap for four hours and never get tired. After he gets her he is exhausted if she asks him to hold the baby on his knee for two minutes.
